

Battery Maintenance Supplies

Hydrogen Detector

Lead-acid storage batteries emit hydrogen while gassing during charge. Hydrogen concentration of 4% to 75% by volume in air are potentially explosive. Hydrogen gas detector is designed to provide for dissipation and warning before any concentration reaches the lower explosive limit (LEL) of 4%.

- 1% Concentration energizes a relay which activates your exhaust fan
- 2% Concentration activates a built-in, pulsating warning alarm
- One-Year Warranty
- 110V; 50/60 htz
- 220VAC or 12VDC available
- 7" h x 4 3/4" w - 2 1/2" deep

Catalog No.

HGDI	Single relay model
HGDI-DR	Dual relay model
30RS	30 ft. remote display

Battery Tools

Catalog No.

TORQ01	Inch pound torque wrench
B-745T19	Brass wire brush (not shown)

ANSI-Approved Eye Wash

Catalog No.

7602.10	10-gallon Stainless Steel
7500	16-gallon gravity feed shown w/9008 cart and 9009 waste container

NCP-2 Brush-on Battery Corrosion Preventative

Non-flammable, high-viscosity, brush-on preventative compound makes all surfaces impregnable to corrosion-causing acid fumes. Easy to apply to intercells.

Catalog No.

B-203	16 oz. NCP-2 Brush-on*
C-304	32 oz. NCP-2 Brush-on*
CB-104	4 oz. NCP-2 Brush-on (Brush in cap)
CB-304	32 oz. NCP-2 Brush-on (Brush in cap)
MB-102	1 oz. NCP-2 Brush-on

* Brush not included

Watering Carts

The professional way to dispense water quickly and accurately into any kind of industrial battery. Just snap on one of our automatic watering guns and you have a completely mobile service unit.

Catalog No.

CRT-4B	15-gallon tank, cart, battery box and charger pump (battery sold separately C.N. S-12330)
CRT-2A	8-gallon portable cart with built-in battery VRLA, pump, and charger
GUN-S	Watering gun
GUN-G	Watering gun with auto shut-off (not shown)

Water Deionizer

Ion exchanger removes dissolved impurities. The purity is comparable with distilled water and ideal for batteries. Disposable cartridge system for making up to 600 gallons of pure water.

Catalog No.

PS300	Total system
PS600	Replacement cartridge

Unbreakable Hydrometers

Catalog No.

Z-1P	Industrial grade hydrometer built with polycarbonate barrel and plastic float Easy Read Scale 1.100 – 1.320
Z-1G	Industrial grade hydrometer built with polycarbonate barrel and special heavy-duty glass float that can withstand drops from 10 ft. Scale 1.100 – 1.350 Note: .005 Subdivisions
1353	Thermometer (not shown) -20°F to +130°F with correction table
