(6-25 AMP)

INTRODUCING

CRITICAL COMPONENT

EJ5256-00

KIT

A **NERC** RELIABILITY SOLUTION

YOUR DC SYSTEM DEMANDS RELIABILITY!

Introducing an all-in-one reliability solution. This robust field repair kit is equipped with major charger components, specialized tools and installation instructions. The AT10 Critical Component Kit minimizes potential costly down time, while delivering confidence and peace of mind.

A **NERC** RELIABILITY SOLUTION

AT10 CRITICAL COMPONENT KIT CONTENTS:

- Main control board
- Rectifier assembly
- Polarity diode
- Blocking diode
- Rating resistors
- Power supply resistors
- Scaling resistors
- I/O surge suppressors
- EMI filter network
- Aux. alarm relay board
- Communication board
