

Sealed Battery Pack with Charger

Maintenance-Free Power Pack

Features

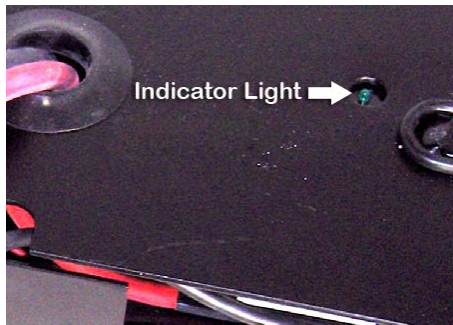

- Maintenance-free, non-spillable deep cycle batteries
- Just plug into a 110 Volt outlet to charge – no other connections required
- Bullet-proof charger design withstands vibration and moisture as well as extended run time
- Unique battery spacers can be easily removed to accommodate narrow battery

This waterproof, vibration-resistant charger is so robust that it is covered by a 2-year replacement warranty.

8 Volt battery design increases reliability by reducing the number of connections.

Charge indicator light. Battery can be left on charge for extended periods without damage to the battery.

No need to stock two sizes. By simply removing 2 spacers, the 8.63" pack width is reduced to a 7.63" deep compartment.

Technical Data

| Model No. | MF | Capacity | | | Charger Output | Battery | | | Weight (Lbs.) |
|----------------|----------|----------|-----|--------------|----------------|-------------|--------------|-----|---------------|
| | DC Volts | AH | KWH | Length (In.) | | Width (In.) | Height (In.) | | |
| 24-8195MF-15L# | 24 | 200 | 4.8 | 15 | 25.25 | 8.63 | 21.87 | 320 | |
| 24-8195MF-15S | 24 | 200 | 4.8 | 15 | 25.25 | 7.63 | 21.87 | 320 | |
