

ELECTRIC TRANSFER CART

E-PJTC

TRANSFERRING BATTERIES WITH SACKETT TRANSFER CARTS PROVIDES SAFE, EFFICIENT TRANSPORTATION OF YOUR FORK LIFT BATTERIES.

Whether you are utilizing opportunity charging, or conventional charging, these durable carts allow batteries to be removed quickly from forklifts for charging, servicing or watering. Available in several models and widths, Sackett has transfer cart solutions that save you time and money, while keeping your business moving.

Model E-PJTC is the safest and the best electric version – it has powered extraction of the battery from the forklift and uses the powered extraction arm to push the battery back into the forklift. This model can be ordered with magnet or vacuum extraction options. Ideal usage is 5-20 battery changes per day.

ELECTRIC TRANSFER CARTS

FEATURES

- All electric pallet jack transfer cart
- All electric motor allowing easy service and maintenance
- Magnet or vacuum extraction
- Maximum arm reach outside of machine = 7.5"
- Mounting easily on a pallet jack (hardware included)
- Up to 5,000 lbs battery capacity
- Limiter switch on extraction arm to minimize unnecessary strain on the electric motor system
- Lead roller to assist with the battery transition smoothly
- Flip up stop to alleviate battery rolling back unsafely
- Roller bed to use with outriggers on a forklift
- Built to last solid welded steel construction with acid resistant paint
- Flashing light while magnet is on

MODEL

E-PJTC: Electric Powered Extraction

Lift: Utilize lift of pallet jack

Roller Height: 6-1/4" to 12-1/4" (high R spacer available for higher transfer heights) *Safest, most economical, powered extraction*

OPTIONS:

- Flexible mounting hardware for use with dedicated pallet jack
- 27" wide drive under base that allows use of pallet jack elsewhere when not transferring batteries
- Fork pockets for use with fork lifts along with a 4 button pendant
- Customizable length and width (common width 24" 30" 36" 42" and length 40" 45" 50")
- Drop in roller bed is used for higher transfer heights
- Optional battery guides for narrow batteries to ensure they transfer safely
- Tethered remote control
- Audible sound and light while magnet is on
